

# Progress Dashboard

This dashboard is made to show the progress of your city/hub's efforts to increase vaccination at your local churches. The information is cumulative from Aug 1, 2021 to present from CHL Weekly Reports and C-HOP information with additional vaccine and testing information from January to August 2021.

City/Hub

### Choose your City/Hub

Unselect "all" to choose your city/hub's efforts.

All

### Select a Church (Optional)

Select a church within the city/hub for more details.

All

### Filter by Time Period (Optional)

The default "All" shows the cumulative information to date. Unselect "all" and check the week(s) to view by week.

All

### Total number of churches

158

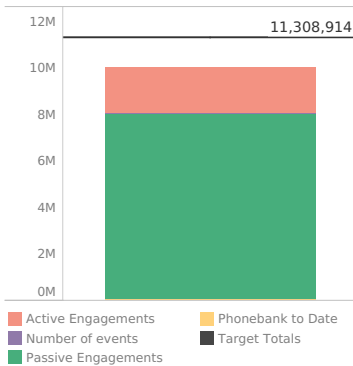

Note: The lines on the graphs below show the target value or an assumption of what can be done for each effort. Hover over the bars or the target line to see the values.

Engagement

### Engagements

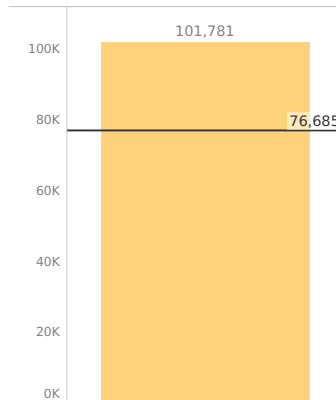

Active Engagements: How many people were talked to?

Passive Engagements: Example - How many people attended an event or received an email?

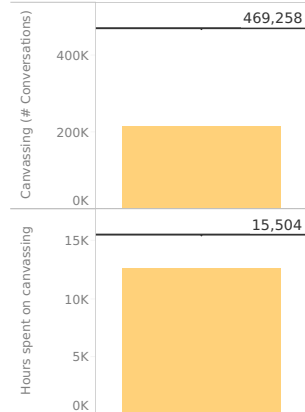

### Phonebanking

# of conversations

### Canvassing

Testing

### Testing Events

1,551

### Tests Given

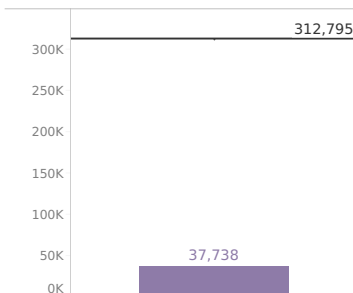

26,949

Vaccination

### Commitments

Commitment: A one-on-one commitment that one would get a vaccine, for example, as tracked during a phonebank or canvassing conversation.

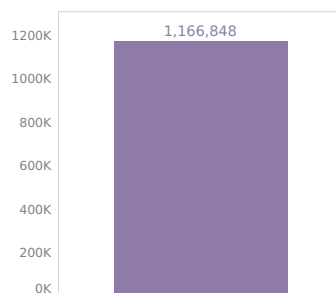

Commitments met:  
12.06%

### Referrals

Referrals/Appointments: When a Health Navigator helps an individual to schedule an appointment for a COVID-19 vaccine and/or refers them to locations convenient to them.

Vaccines given / Referrals made:  
4.94%

### Vaccines

Vaccines given: Includes doses administered at a church's own events and confirmations from church's contacts that they received their vaccine after church outreach.

Vaccines met:  
106.05%
